Expericence

Web & Android Developer

Freelance

2020 - Now

I work as freelance fullstack web developer and android developer. My task starts from compiling a project brief, then design the user interface, converting from design to html and css, then coding the backend until the web and application are ready for users to use.

Education

Sebelas Maret University

Bachelor of Informatics Education

Surakarta, Indonesia. Graduated in 2020

Tools & Skills

Adobe Xd	HTML	Bootstrap
Figma	CSS	TailwindCSS
VS Code	PHP	Laravel
Android Studio	Javascript	Code Igniter
	Kotlin	VueJS
